

Workshop Quantum Foundations: New frontiers in testing quantum mechanics from underground to the space

giovedì 30 novembre 2017

Chair: A. Scordo - Aula Conversi (14:45 - 17:45)

time	[id] title	presenter
14:45	[25] Nonequilibrium quantum bounds to Landauer's principle	CAMPBELL, Steven
15:15	[26] Non-Markovian dynamics beyond the Gaussian ansatz	FERIALDI, Luca
15:45	Coffee Break	
16:15	[27] From Quantum Cellular Automata to Doubly Special Relativity	BISIO, Alessandro
16:45	[28] Quantum enhanced measurements: from ultra-high sensitivity in absorption measurements to detection of quantum gravity effects	Sig.ra LOSERO, Elena
17:15	[29] Chiral Symmetry restoration in heavy ion collisions	Dr. VAZQUEZ DOCE, Oton
