

Workshop Quantum Foundations: New frontiers in testing quantum mechanics from underground to the space

Friday, 1 December 2017

Chair: A. Bassi - Aula Conversi (09:30 - 13:30)

time	[id] title	presenter
09:30	[30] Cosmic Inflation and Quantum Mechanics I: Concepts	Mr MARTIN, Jerome
10:00	[31] Cosmic Inflation and Quantum Mechanics II: Applications	VENNIN, Vincent
10:30	[32] EVENT: EPS Emmy Noether Prize – assigned to Catalina Curceanu, with participation of Lucia Di Ciaccio, European Physics Society	Dr CURCEANU, Catalina Oana DI CIACCIO, Lucia
11:30	Coffee Break	
11:50	[33] Quantum Mechanics under test along Space channels	VILLORESI, Paolo
12:20	[34] Discrete symmetries tests in the positronium decays with the J-PET detector	Mr SILARSKI, Michal Zbigniew
12:50	[35] Relational quantum mechanics: the case for a quantum spacetime	MACCONE, Lorenzo
13:20	[36] Farewell
