

La Thuile 2018

Friday, 2 March 2018

Search for New Physics (08:30 - 11:45)

-Conveners: Enrico Trincherini

time	[id] title	presenter
08:30	[47] Measurement of Higgs production cross-sections and couplings	DONATO, Silvio
08:55	[45] Direct and indirect probes of the Higgs Yukatawa couplings	HAISCH, Uli
09:20	[48] Search for dark matter production at ATLAS and CMS	GROHSJEAN, Alexander
09:45	[49] DM at colliders	SCHWALLER, Pedro
10:10	[78] Higgs properties and decays, searches for high mass Higgs boson and di-Higgs production	CADAMURO, Luca
10:35	coffee break	
10:55	[50] Collider implication of flavor anomalies	NARDECCHIA, Marco
11:20	[51] Searches for rare Top processes and decay and third generation SUSY	ZAMBITO, Stefano

Search for New Physics (16:30 - 18:25)

-Conveners: Ugo Gastaldi

time	[id] title	presenter
16:30	[52] Searches for electroweak and strong SUSY	FOLGUERAS, Santiago
16:55	[53] Searches for long-lived particle decays at the LHC	GENNAI, Simone
17:20	coffee break	
17:35	[54] Searches for high-mass resonances in bosons and leptons	ALISON, John
18:00	[71] Searches for electroweak Higgsino production in compressed scenarios with ATLAS	SWIATLOWSKI, Maximilian
