

Second Circular EURISOL Town Meeting Pisa

Dear Colleagues,

This is the second circular for the EURISOL Town meeting to be held in Pisa from the 2nd to the 4th of July 2018.

The Town Meeting is planned to discuss and disseminate the recent progress, the on-going physics and instrumentation developments, and the specific needs and future plans of the EURISOL community, recently expressed also by the EURISOL Distributed Facility initiative.

The advancement of the EURISOL concept, with the long-term goal to build a dedicated facility, needs special attention and requires activities to help constantly update the scientific case, shape the community, and strengthen the synergies with other facilities. For these reasons within the ENSAR2 project, part of the European framework HORIZON 2020, a JRA - EURISOL work package exists and EURISOL networking activities are included in the NUSPRASEN network.

The meeting will consist of invited talks and contributed posters and a round table.

The webpage of the conference is <https://agenda.infn.it/conferenceDisplay.py?ovw=True&confId=14402> where you can also find the final Programme.

The EURISOL Town Meeting report constitutes one of the Deliverables of the WP2 NUSPRASEN of ENSAR2. For this reason, speakers and presenters of posters will be asked to provide a short account of their presentations (4 and 2 pages respectively).

Registration has been extended to June 25th 2018. There is no registration fee.

Poster abstract submission has also been extended to June 22nd 2018 and acceptance will be notified by June 24th. Thanks to a recent local financial support we are able to offer a number of grants up to 500euro each. They are for young participants presenting a poster dealing with the Physics and Instrumentation at any ISOL facility. Applications via email to bonac@df.unipi.it

The meeting location is

INFN - Pisa

Bldg. C - ground floor. Room: Aula 131

We expect to have very interesting and lively discussions on EURISOL and particularly on the EURISOL DF project and are looking forward to welcoming you in Pisa,

Yorick Blumenfeld, Angela Bonaccorso, Berta Rubio, Marek Lewitowicz
(June the 6th 2018)
