

JENNIFER Summer School, Trieste 30.07-03.08.2018

# Welcome to Trieste !

a city for physicists

enjoying good life

# Local physics network

INAF-OATS

astrophysics

INFN

particles & nuclei

Elettra, CNR-IOM

condensed matter

Physics Department @ UniTS

ICTP

theory & interdisciplinary

SISSA

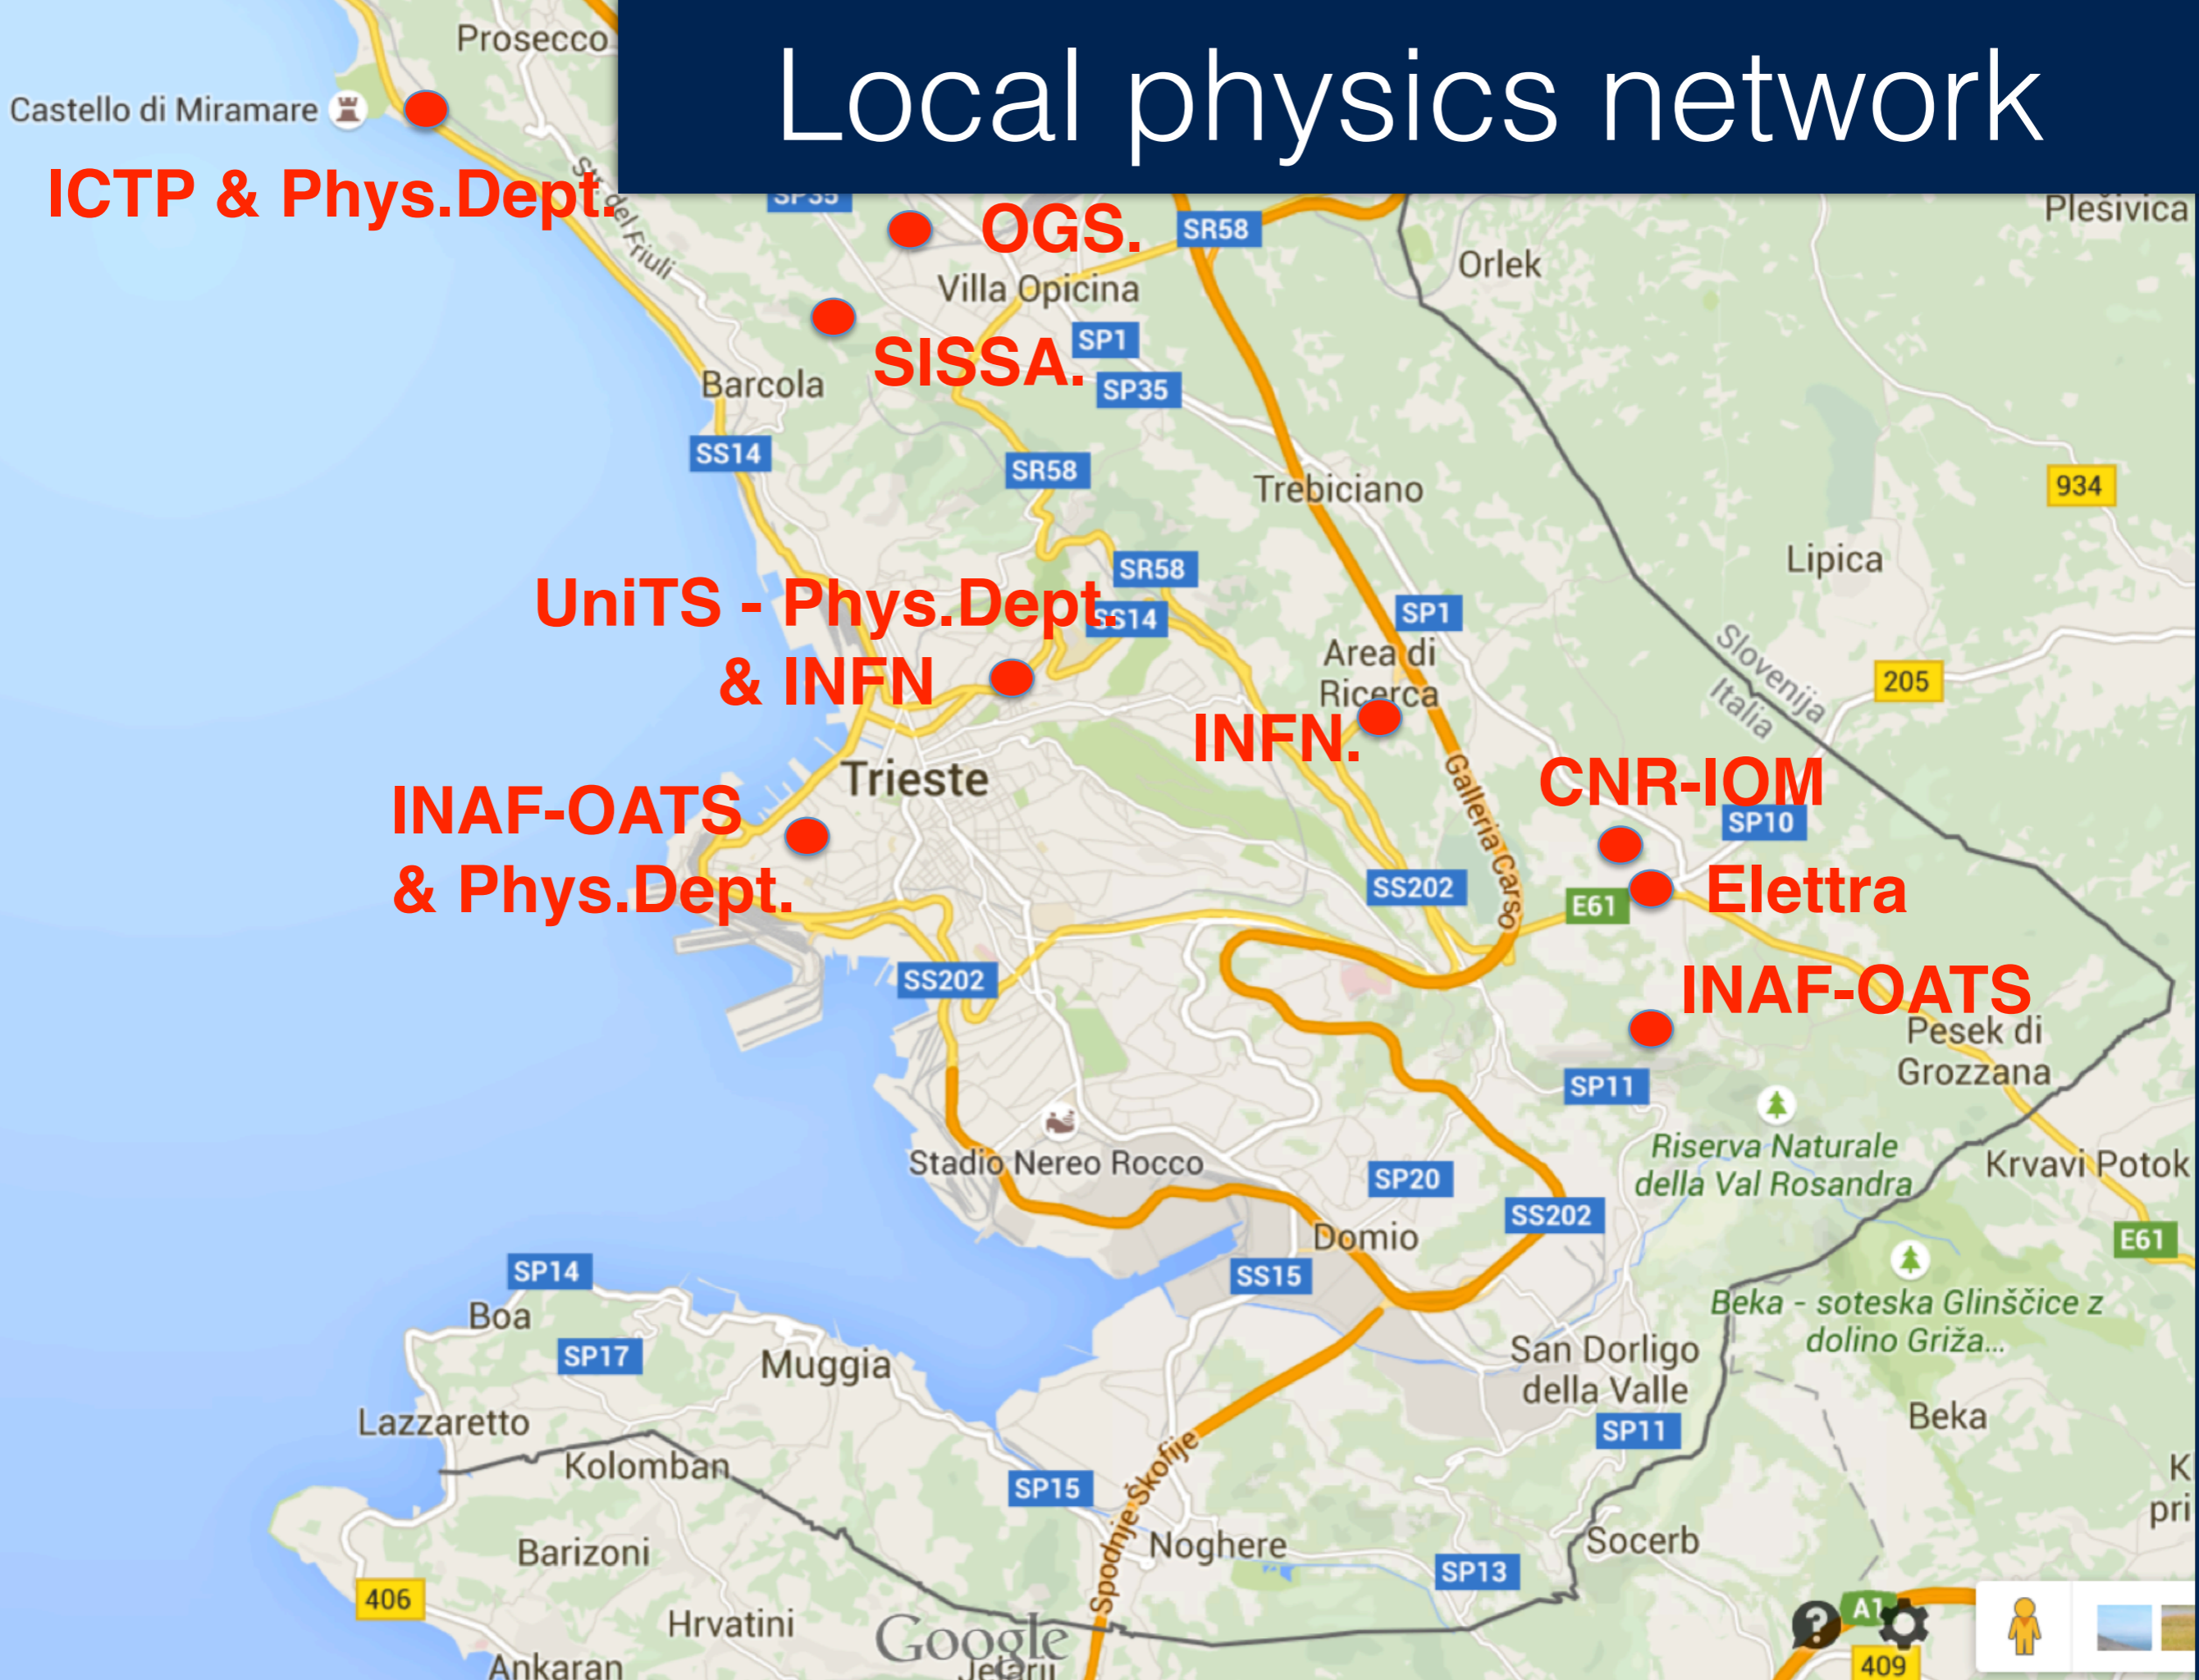

OGS

geophysics

# Local physics network

# Physics PhD program @UniTS

leading edge research projects available

*astrophysics, condensed matter physics,*

*medical physics and biophysics,*

*nuclear and particle physics, and theoretical physics*

about 10 scholarships awarded each year

call for applications in May - June (take note!)

12 scholarships funded this year:

6: free choice of subject (3 UniTS + 3 INFN)

3: specific projects, condensed matter (Elettra light source)

2: specific projects, astrophysics (INAF)

1: theory, non-high income countries (ICTP)

# Trieste: outdoors

hiking

swimming

rock climbing

rowing, kayaking

cycling

sailing

# Trieste: cultural and social life

coffee shops

nightlife

bookshops

theatres,  
museums

music
