## XYZ states at BESIII

*Tuesday, 4 September 2018 17:25 (25 minutes)*

A status report on XYZ states is shown and the last results by BESIII are reported.

The present data on the hidden charm candidate, the  $Y(4660)$ , are discussed, in particular BESIII data close to the  $\Lambda_c\text{-}\Lambda_c\bar{c}$  threshold in comparison with Belle data.

Future BESIII plans are also reported.

**Presenter:** Dr MESSCHENDORP, Johan (KVI-CART/University of Groningen)

**Session Classification:** Hadron structure, spectroscopy and dynamics
