

AtmoHEAD 2018

Wednesday, September 26, 2018

Transient Luminous Events and General Topics in Atmospheric Electricity (9:30 AM - 11:00 AM)

-Conveners: Roberto Mussa

time	[id] title	presenter
9:30 AM	[22] Influence of Atmospheric Electricity on the recovered parameters of primary cosmic rays	Prof. CHILINGARYAN, Ashot
10:00 AM	[4] Ground-Based Observations of Terrestrial Gamma Ray Flashes Associated with Downward-Directed Lightning Leaders	Prof. ABBASI, Rasha
10:30 AM	[5] The Observation of lightning-related events with the Surface Detector of the Pierre Auger Observatory.	COLALILLO, Roberta

Transient Luminous Events and General Topics in Atmospheric Electricity (11:30 AM - 1:00 PM)

-Conveners: Ashot Chilingarian

time	[id] title	presenter
11:30 AM	[19] ELVES at the Pierre Auger Observatory	MUSSA, Roberto
12:00 PM	[2] Propagation and R.F. Emission Patterns of Lightning Leaders as Observed by the LOFAR Radio Telescope	Dr HARE, Brian
12:30 PM	[9] On The Importance Of The Electrical And High-Energy Processes Monitoring In Troposphere	Dr GHALUMYAN, Arsen
