

# Half a Century of Blazars and Beyond

## Thursday, 14 June 2018

**Jet signatures of super-massive black hole binaries and relation to low-frequency gravitational waves - Aula Darwin**

**(13:40 - 15:10)**

| time  | [id] title  | presenter       |
|-------|---|-----------------|
| 13:40 | [155] Supermassive Black Hole Binary Candidates identified as blazars or quasars with periodic variability -- prospects for multi-messenger astronomy (Invited) | CHARISI, Maria  |
| 14:10 | [156] OJ287: Deciphering the "Rosetta stone of blazars"   | BRITZEN, Silke  |
| 14:30 | [157] Evidence of a Supermassive Black Hole Binary system in PG 1553+11.3   | ABRAHAM, Zulema |
| 14:50 | [158] Year-long quasi-periodicities of gamma-ray blazars: A cautious approach   | COVINO, Stefano |
