

Half a Century of Blazars and Beyond

Tuesday, 12 June 2018

Gamma-ray linchpin: Fermi (and Beyond) - Aula Darwin (08:45 - 10:25)

time	[id] title	presenter
08:45	[120] The Fourth catalogue of AGN detected by Fermi-LAT (Fermi@10 Special talk)	GASPARRINI, Dario
09:10	[121] The blazar sequence is alive (Review)	GHISELLINI, Gabriele
09:45	[125] To BLR or not to BLR ? The Fermi-LAT view	COSTAMANTE, Luigi

Gamma-ray linchpin: Fermi (and Beyond) - Aula Darwin (10:55 - 12:15)

time	[id] title	presenter
10:55	[126] High Energy flares of FSRQs: the connection with the accretion disk luminosity	PACCIANI, Luigi
11:15	[127] Chasing hidden TeV beacons in the elusive population of extreme HBLs	BONNOLI, Giacomo
11:35	[128] Extreme TeV blazars as probes of the intergalactic medium: beyond the absorption-only model	DZHATDOEV, Timur
11:55	[186] The Cherenkov Telescope Array view of extra-galactic jetted sources	VERCELLONE, Stefano
