

Half a Century of Blazars and Beyond

martedì 12 giugno 2018

Gamma-ray linchpin: (Fermi) and Beyond - Aula Darwin (13:45 - 15:05)

time	[id] title	presenter
13:45	[129] Joint NuSTAR and Fermi observations of blazars	MADEJSKI, Grzegorz
14:05	[130] X-ray Intraday Flux and Spectral Variability of TeV Blazars with NuSTAR	PANDEY, Ashwani
14:25	[131] A multi-wavelength view of the most extreme X-ray flare from Mrk 501	BECERRA GONZÁLEZ, Josefa
14:45	[132] FERMI transient J1544-0649: a flaring radio-weak BL Lac	BRUNI, GABRIELE

Gamma-ray linchpin: (Fermi) and Beyond - Aula Darwin (16:00 - 18:00)

time	[id] title	presenter
16:00	[133] Restarting activity in the nucleus of PBC J2333.9-2343 (HERNANDEZ-GARCIA et al.)	PANESSA, Francesca
16:20	[134] Jet physics of blazar-like narrow-line Seyfert 1 galaxies in the Fermi era	D'AMMANDO, Filippo
16:40	[135] Collimation, acceleration and recollimation shock in the jet of gamma-ray emitting radio-loud NLS1 galaxy 1H 0323+342	HADA, Kazuhiro
17:00	[136] Gamma loud NLS1s: a low scale version of FSRQs?	BOISSON, Catherine
17:20	[137] Spectroscopy of extragalactic gamma-ray emitters: new identification, classification and redshift	PAIANO, Simona
17:40	[138] Search for AGN counterparts of unidentified Fermi-LAT sources using optical polarimetry	BLINOV, Dmitry
