

Bound states in strongly coupled systems

Thursday, 15 March 2018

Amplitude analysis and Light Quarks (09:30 - 13:00)

time	[id] title	presenter
09:30	[36] Dispersive and analytic approach to pion and kaon interactions	Prof. PELAEZ, Jose
10:00	[12] The GlueX Experiment: Status and Prospects	SHEPHERD, Matthew
10:30	[46] Constraining the production mechanisms of mesonic systems	Mr NYS, Jannes
11:00	Coffee Break	
11:30	[30] Light-meson spectroscopy with COMPASS	Mr GRUBE, Boris
12:00	[27] Quark mass dependence of photon pion scattering	Mr NIEHUS, Malwin
12:30	[53] Amplitude analysis for exotic states	PILLONI, Alessandro

Amplitude analysis and Light Quarks (14:30 - 18:00)

time	[id] title	presenter
14:30	[48] Light meson spectroscopy on the lattice	Prof. BRICENO, Raul
15:00	[21] Excited mesons and resonances from lattice QCD	Dr THOMAS, Christopher
15:30	[28] Resonant scattering amplitudes from lattice QCD	Prof. BULAVA, John
16:00	Coffee Break	
16:30	[25] Companion poles in light and heavy mesonic sectors	Dr GIACOSA, Francesco
17:00	[58] Discussion
