#### Introduction

- The International Radiation Physics Society (IRPS) was founded in 1985 at the Third International Symposium on Radiation Physics (ISRP-3), which was held in Ferrara, Italy
- It sponsors symposia every three years and will hold ISRP-14 in Córdoba, Argentina, in October 2018

#### Objective

- Promote the global exchange and integration of scientific information pertaining to the interdisciplinary subject of radiation physics, including the promotion of
  - 1. Theoretical and experimental research in radiation physics
  - 2. Investigation of physical aspects of interactions of radiations with living systems
  - 3. Education in radiation physics
  - 4. Utilization of radiations for peaceful purposes

#### Constitution, Bylaws, and Bulletin

- The Society has a Constitution and Bylaws
- These were updated in 2014
- The archives of the Society are in storage at the offices of the American Physical Society
- IRPS publishes a quarterly electronic Bulletin

### Expansion

- In the last decade, IRPS has begun sponsoring
  - Industrial Radiation and Radioisotope Measurement Applications (IRRMA)
  - International Conferences on Dosimetry and Applications (ICDA)
- Both of these also have tri-annual conferences

### **Current Sponsorships**

- Thus, IRPS sponsors an international meeting every year, consisting of
  - ISRP meetings
  - IRRMA meetings
  - ICDA meetings

## Recent and Upcoming Meetings

- IRRMA-9, Valencia, Spain, 2014
- ISRP-13, Beijing, China, 2015
