

Ricap18 7th Roma International Conference on Astroparticle Physics

Wednesday, 5 September 2018

Neutrinos - Room B (14:10 - 16:10)

-Conveners: Juan de Dios Zornoza

time	[id] title	presenter
14:10	[199] AGILE Gamma-ray Sources Coincident with Cosmic Neutrino Events	Dr LUCARELLI, Fabrizio
14:30	[189] Measurement of the cosmic ray Moon shadow with the ANTARES detector.	SANGUINETI, Matteo
14:50	[125] Anagraphical picture of high energy Galactic Neutrino	MARINELLI, Antonio
15:10	[205] Search for tau neutrinos with the MAGIC telescopes: the quest continues	Dr MANGANARO, Marina
15:30	[158] Particle propagation in clumpy media	CELLI, Silvia
15:50	[214] Prospects on CCSN neutrino detection with the KM3NeT telescopes	COLOMER MOLLA, Marta
