

# Ricap18 7th Roma International Conference on Astroparticle Physics

## Wednesday, September 5, 2018

### Posters session (6:40 PM - 7:40 PM)

time	[id] title	presenter
6:40 PM	[163] CSES-LIMADOU: HEPD Ground Segment at ASI-SSDC	Mr MERGE', Matteo
6:41 PM	[157] The HEPD Segmented Calorimeter	Dr VITALE, Vincenzo
6:42 PM	[164] Status and first results from the ARCA and ORCA lines of the KM3NeT experiment	FERMANI, Paolo
6:43 PM	[172] MC simulation of HEPD detector - performances and beam test analysis	CARFORA, Luca
6:44 PM	[177] Integration and testing of the Mini-EUSO UV telescope	CAMBIÈ, Giorgio
6:45 PM	[176] Mini-EUSO: a telescope on board the International Space Station for the observation of terrestrial and cosmic UV emissions	MARCELLI, Laura
6:46 PM	[187] e-Astrogam Mission Polarimetric Optimization	Mr CURADO DA SILVA, Rui
6:47 PM	[221] Variability studies of GRB light curves and neutrino flux prediction for multi-collision zone model	Ms ZEGARELLI, Angela
6:48 PM	[224] Preliminary Studies on Supernova neutrinos with JUNO detector	Mrs MARTELLINI, Cristina
6:49 PM	[223] e-mu discrimination at high energy in the JUNO detector	SETTANTA, Giulio
