

Ricap18 7th Roma International Conference on Astroparticle Physics

Wednesday, 5 September 2018

Posters session (18:40 - 19:40)

time	[id] title	presenter
18:40	[163] CSES-LIMADOU: HEPD Ground Segment at ASI-SSDC	Mr MERGE', Matteo
18:41	[157] The HEPD Segmented Calorimeter	Dr VITALE, Vincenzo
18:42	[164] Status and first results from the ARCA and ORCA lines of the KM3NeT experiment	FERMANI, Paolo
18:43	[172] MC simulation of HEPD detector - performances and beam test analysis	CARFORA, Luca
18:44	[177] Integration and testing of the Mini-EUSO UV telescope	CAMBIÈ, Giorgio
18:45	[176] Mini-EUSO: a telescope on board the International Space Station for the observation of terrestrial and cosmic UV emissions	MARCELLI, Laura
18:46	[187] e-Astrogam Mission Polarimetric Optimization	Mr CURADO DA SILVA, Rui
18:47	[221] Variability studies of GRB light curves and neutrino flux prediction for multi-collision zone model	Ms ZEGARELLI, Angela
18:48	[224] Preliminary Studies on Supernova neutrinos with JUNO detector	Mrs MARTELLINI, Cristina
18:49	[223] e-mu discrimination at high energy in the JUNO detector	SETTANTA, Giulio
