

# ICFDT5 - 5th International Conference on Frontier in Diagnostic Technologies

## Thursday 04 October 2018

**Data Mining - Bruno Touschek Auditorium (16:30-18:10)**

**-Conveners: Andrea Murari**

time	[id] title	presenter
16:30	[12] Statistical learning theory for scientific applications: an overview	Dr VEGA, JESUS
16:50	[3] A Model Falsification Approach to Learning in Non-Stationary Environments for Experimental Design	Dr MURARI, Andrea
17:10	[27] Adaptive Learning for Disruption Prediction	Dr GELFUSA, Michela
17:30	[7] Causality detection methods for time series analysis	Dr CRACIUNESCU, Teddy
17:50	[26] Determining the causality horizon in synchronization experiments	Dr PELUSO, Emmanuele
