Servizi per  
le Aziende srl

Radioprotezione  
Fisica Sanitaria  
Dosimetria

**LB servizi** per le aziende srl was born **in 2005** with the aim to offer services and expertise in the field of the **Radioprotection** and **Radiological Characterisation** by means of Laboratory analysis and field expertise and operation.

- ▶ Radioprotection *evaluation*
- ▶ Radioprotection *Expert service (III degree for Italian legislation)*
- ▶ Environmental *impact evaluation*
- ▶ Environmental *surveillance*
- ▶ Dosimetry

---

**UNI 17025** Accredited Laboratory  
**ISO 9001** certification

The **experiences acquired** on radiation protection in the context of the *decommissioning* of nuclear power plants and cyclotrons allow to guarantee the **best technical** and **professional** results.

**Graduate Junior and Senior, technicians and analysts** specialized in different scientific disciplines as well as collaborators of high technical skill and experience allows us to provide *the best solution* for every radiological problem.

**LBservizi** has always invested in the synergy of the various scientific and technical disciplines, always succeeding in proposing the most fitting solution, especially for large companies and large institutions.

**Flexibility and Modularity**

**Speed and Professionality**

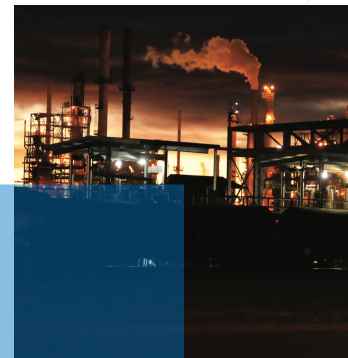

are  
our *distinctive*  
characteristics

The **development** and the **strengthening** of the **LBservizi Laboratory** for what concern *Professional figures* and *Instrumentation* allowed to extend the field of interest of the services proposed especially on the radiological characterisation.

- **Non Destructive Assay**
  - ▶ *Gamma Spectroscopy*
  - ▶ *Gamma Spectroscopy in field*
- **Destructive Assay**
  - ▶ Liquid scintillation
  - ▶ Alpha spectroscopy

- **Treatment of the sample**
- **Chemical analysis**
- **Health of work and public places**
  - ▶ Physical and Chemical Agents Impact
  - ▶ Water Quality
  - ▶ Air Quality

**Thank You**
