

COSMOS meeting on Astroparticle and Fundamental Physics with the CMB

Tuesday, 26 June 2018

CMB anomalies - C412 (11:00 - 13:00)

-Conveners: Alessandro Gruppuso

time	[id] title	presenter
11:00	[7] Do we understand the cosmic dipole? (KN)	SCHWARZ, Dominik
11:30	[8] A revision of the CMB cold spot	VIELVA, Patricio
11:50	[9] Non-Gaussian g_{NL} -like toy models that reproduce the CMB anomalies	BARTOLO, Nicola
12:10	[10] Peculiar velocity effects and anomalies	NOTARI, Alessio
12:30	[11] Principal component analysis of the primordial tensor spectrum	CAMPETI, Paolo
