Observational results - Polo di Psicologia - room 3I (3rd floor, building 2) (09:00 - 10:30)

-Conveners: Paolo Padovani

time	[id] title	presenter
09:00	[99] The extreme character of our closest VHE blazars, Mrk421 and Mrk501	Dr PANEQUE, David
09:30	[80] An unprecedentedly hard spectrum in VHE for the Extreme HBL 1ES 2344+51.4	Dr MANGANARO, Marina
09:50	[70] Variability study of extreme blazars with VERITAS	GUETA, Orel
10:10	[67] All the MAGIC of extreme blazars	Mr FALLAH RAMAZANI, Vanda

Observational results - Polo di Psicologia - room 3I (3rd floor, building 2) (11:10 - 12:10)

-Conveners: Paolo Padovani

time	[id] title	presenter
11:10	[56] On the the time-variable rotation measure in the core region of the TeV blazar Mrk 421	Dr LICO, Rocco
11:30	[86] The magnetic field structure in CTA 102 from high resolution mm-VLBI observations during the high-energy flares in 2016-2017	Dr CASADIO, Carolina
11:50	[65] The jet parameters implied by the measured extreme brightness temperatures in BL Lac and 3C273	Dr NOKHRINA, Elena
