Cosmology - Polo di Psicologia - room 3I (3rd floor, building 2) (16:40 - 18:30)

-Conveners: Jonathan Biteau

time	[id] title	presenter
16:40	[110] Characterizing cosmological fields with blazar observations: the EBL and IGMF	PUESCHEL, Elisa
17:20	[106] The Extragalactic Background Light in the Fermi-LAT Era	PALIYA, Vaidehi
17:50	[75] Intergalactic electromagnetic cascades from extreme TeV blazars	DZHATDOEV, Timur
18:10	[85] Extreme high frequency peaked BL Lac objects to constrain the infrared background light	Prof. FRANCESCHINI, Alberto
