The population of blazars - Polo di Psicologia - room 3I (3rd floor, building 2) (14:10 - 15:50)

-Conveners: Elisa Prandini

time	[id] title	presenter
14:10	[74] Extreme blazar samples: the case of the 3HSP catalogue	Dr PADOVANI, Paolo
14:50	[95] The 2BIGB gamma-ray catalog: Extreme & High Synchrotron Peak 3HSP Blazars newly detected over 10 years of Fermi-LAT observations	Dr SVERSUT ARSIOLI, Bruno
15:10	[64] Radio core dominance in Fermi blazars	PEI, Zhiyuan
15:30	[77] Search for high-redshift blazars with Fermi/LAT	Mr KRETER, Michael

The population of blazars - Polo di Psicologia - room 3I (3rd floor, building 2) (16:30 - 17:30)

-Conveners: Elisa Prandini

time	[id] title	presenter
16:30	[108] The gamma-ray properties of a sample of low-redshift BL-Lacs	RAINO', Silvia
16:50	[92] Te-REX: a sample of extragalactic TeV-emitting candidates	Dr BALMAVERDE, Barbara
17:10	[59] Extreme blazars and their TeV gamma-ray emission: are they a unique population?	FOFFANO, Luca
