

PHOTON 2019 - International Conference on the Structure and the Interactions of the Photon

3-7 June 2019

Satellite Workshop:
Photon Physics and Simulation at Hadron Colliders
6-7 June 2019

This is the second circular to announce the 13th edition of the International Conference PHOTON 2019, that will be held at the INFN Laboratori Nazionali di Frascati (Rome, Italy) on June 3 - 7, 2019.

This edition includes the satellite workshop on Photon Physics and Simulation at Hadron Colliders, which will take place in the last two days of the conference.

As organizers, we took over the challenge of hosting the conference in the major INFN laboratory, EPS historical site, where the first Italian electro-synchrotron started its operations exactly 60 years ago.

The scientific program will include general talks and topical sessions chaired by the following conveners:

- **Gamma-Gamma Collisions**
Lucian Harland-Lang, Cheng-Ping Shen
- **Gamma-Hadron Collisions**
Marco Battaglieri, Aurore Courtoy
- **Astrophysical Gamma**
Alejandro Ibarra, Luca Latronico
- **Gamma Final States**
Mauro Raggi, German Sborlini
- **Future Perspectives**
David d'Enterria, Gudrid Moortgat-Pick

The **Satellite Workshop** will be chaired by:
Leonardo Carminati, Leandro Cieri, Giancarlo Ferrera

The **registration** is managed by the INDICO system at the following link:
<http://agenda.infn.it/event/photon2019>

Abstracts can be submitted until April 15th and will be reviewed by the Working Groups conveners.

As for accommodation, a number of rooms in the nearby hotels have been pre-booked for our participants and will be available until April 3rd.

For further information please visit the conference web site:
<http://agenda.infn.it/event/photon2019>

The LOC offers a few young researcher grants to attend the conference. Interested participants are invited to send an e-mail to photon19_loc@lists.lnf.infn.it with their motivated request for support.

Looking forward to meeting you in Frascati,

The Local Organizing Committee
