

Nuclear Structure and Dynamics - NSD 2019

Wednesday, 15 May 2019

Session XIII (09:00 - 10:40)

-Conveners: Hans Geissel

time	[id] title	presenter
09:00	[114] Nuclear structure studies via precision mass measurements	KANKAINEN, Anu
09:30	[201] Neutrinoless double-beta decay and realistic shell model	ITACO, Nunzio
10:00	[130] Reaction spectroscopy of Borromean nuclei at the drip-lines shed light on the nuclear force and shell evolution	Prof. KANUNGO, Rituparna
10:20	[192] Isospin Symmetry of the A=46 T=1 triplet studied with AGATA	BENTLEY, Michael
