

News

- CYGNO is now an official experiment of CSN2 and therefore will be (lightly) funded next years by INFN;
- We met the Gran Sasso Lab Chief:
 - He likes the Physics Case of CYGNO, not only in the application for DM Search but also for the potentialities in neutrino Physics;
 - We asked for room to install LIME next year (almost found);
 - We asked for room to install CYGNO in 2022. A quite complicated issue to be an answer soon.
