## CONFERENZE 2019

### **SPES one-day Workshop — Interdisciplinary aspects and applications related to the SPES project**

29 Jan 2019 - 30 Jan 2019 • Ferrara, Italy

Abstract: These workshops are planned and promoted by the SPES Scientific Support Group. SPES is the acronym for “Selective Production of Exotic Species”. The project is devoted to basic research in nuclear physics and astrophysics as well as to interdisciplinary applications, ranging from the production of radionuclides of medical interest to the generation of neutrons for material studies, nuclear technologies and medicine.

Related subject(s): Applied Physics

### **2019 JINA-CEE Frontiers in Nuclear Astrophysics Meeting**

22 May 2019 - 24 May 2019 • East Lansing, MI, United States

Related subject(s): Astronomy, Astrophysics and Cosmology, High Energy Physics, Particles and Fields

Event website: <https://indico.fnal.gov/event/18429/>

### **ECT\* workshop — Nuclear and astrophysics aspects for the rapid neutron capture process in the era of multimessenger observations**

01 Jul 2019 - 05 Jul 2019 • ECT\* Trento, Italy

Related subject(s): Astronomy, Astrophysics and Cosmology

Event website: <http://www.ectstar.eu/>

### **INPC 2019 — 27th International Nuclear Physics Conference**

28 Jul 2019 - 02 Aug 2019 • Glasgow, United Kingdom

Related subject(s): High Energy Physics, Particles and Fields

Event website: <https://eventegg.com/inpc/>

### **Nuclear Physics in Astrophysics IX**

15 Sep 2019 - 20 Sep 2019 • Schloss Waldthausen, Frankfurt am Main, Germany

Related subject(s): Astronomy, Astrophysics and Cosmology
