

Vacuum Fluctuations at Nanoscale and Gravitation: theory and experiments

Thursday, 2 May 2019

Underground Site Characterization (08:55 - 10:15)

time	[id] title	presenter
08:55	[30] Homestake site	MATAS , A.
09:20	[31] Matra site	VÁN, P.
09:45	[57] The LSBB Underground Laboratory	DE MARCILLAC, P.

Underground Site Characterization (10:45 - 12:00)

time	[id] title	presenter
10:45	[32] Polgraw site studies	BULIK, T.
11:10	[33] Three Border Region	KOLEY, S.
11:35	[65] Low frequency detectability of Gravitational wave at the Matra mountains	SOMLAI, L.
