

EIC Software Meeting

May 20-21, 2019
Trieste, Italy

We will discuss the status of the simulation software for the EIC and will provide the tutorials for simulation tools. There will be contributions by members of the EIC Software Consortium and the EICUG Software Working Group as well as members from the HEP community. The meeting will also include a joint session with the INFN School on "Machine learning in High Energy Physics" that will be held in parallel to our meeting.

Organizers:

Andrea Bressan (INFN Trieste), Markus Diefenthaler (JLab), Alexander Kiselev (BNL)
