

4th European Advanced Accelerator Concepts Workshop

Wednesday, 18 September 2019

WG6 - Proposed solution(s) to physical problem, Envelope PGC model - SE (18:00 - 19:00)

time	[id] title	presenter
18:00	[179] Stable positron acceleration in self-generated hollow channels	SILVA, Thales
18:20	[219] Full-scale modeling of plasma-based accelerators using ponderomotive guiding center solver in OSIRIS	HELM, Anton
18:40	[328] Numerical implementation of a hybrid PIC-fluid framework in laser-envelope approximation	TERZANI, Davide
