

8th GOSPEL Workshop. Gas sensors based on semiconducting metal oxides:
basic understanding & application fields

Contribution ID: 4

Type: **Invited Talk**

Self-heated graphene microchannels for low-power-consumption chemoresistive sensor array

Friday, 21 June 2019 08:30 (30 minutes)

Summary

Primary author: Prof. HO WON, Jang (Seoul National University, Department of Materials Science and Engineering)

Presenter: Prof. HO WON, Jang (Seoul National University, Department of Materials Science and Engineering)

Session Classification: Session 5 - Advanced materials
