

**8th GOSPEL Workshop. Gas sensors based on semiconducting metal oxides:
basic understanding & application fields**

Contribution ID: 31

Type: **Oral**

**SnO₂-based gas sensor for detection of refrigerant
gases**

Friday, 21 June 2019 17:00 (20 minutes)

In this presentaiton, a refreigerant gas sensor will be introduced with its development background.

Summary

Primary author: IZAWA, Kuniyuki

Presenter: IZAWA, Kuniyuki

Session Classification: Session 8 - New devices –Application
