## **Extraction of TMDs from Drell-Yan data**

Wednesday, 27 November 2019 16:30 (20 minutes)

We present an extraction of unpolarized transverse-momentum dependent (TMD) parton distribution functions (PDFs) based on a fit on data from Drell-Yan processes in different experiments and kinematic ranges, including in particular LHC experiments. The analysis is performed in the TMD factorization framework with perturbative accuracy up to next-to-next-to-leading-log  $(N^3LL)$ , obtaining an improvement in the agreement with data.
