

Workshop on Resummation, Evolution, Factorization (REF 2019)

venerdì 29 novembre 2019

Friday 1 - Aula Foscolo (09:00 - 11:30)

-Coordinatori: Marco Radici

time	[id] title	presenter
09:00	[51] New developments in the PROSA PDF fit	GARZELLI, Maria Vittoria
09:30	[23] Small-x resummation and its impact in PDF determination	BONVINI, Marco
10:00	[39] A model calculation of the transverse-momentum-dependent gluon density in the proton	CELIBERTO, Francesco Giovanni
10:30	[20] Wilson-line geometries and the relation between IR singularities of form factors and the large-x limit of DGLAP splitting functions	MILLOY, Calum
11:00	[45] Helicity-dependent generalization of the JIMWLK evolution	COUGOULIC, Florian
