

Session Program

29-31 Aug 2019

Workshop on "Flavour changing and conserving processes" 2019 (FCCP2019)

Session12

Villa Orlandi, Anacapri, Capri Island, Italy
International Centre for Scientific Culture - University of Napoli Federico II

Thursday 29 August

11:30

Session12

Session |**Location:** Villa Orlandi, Anacapri, Capri Island, Italy, International Centre for Scientific Culture - University of Napoli Federico II

11:30-12:00

The Leading Hadronic contribution to the muon $g-2$

Speaker

Thomas Teubner

12:00-12:20

Three-pion contribution to hadronic vacuum polarization

Speaker

Bai-Long Hoid

12:20-12:45

Mellin-Barnes approach to HLO

Speaker

David Greynat

12:45-13:15

Lattice calculation of the Hadronic Leading Order contribution to the muon $g-2$

Speaker

Hartmut Wittig

13:15-13:40

Holographic approach to the Light-By-Light contribution

Speaker

Luigi Cappiello

13:40
