

# 10th Einstein Telescope Symposium

## Thursday, 11 April 2019

### ET sites: ET sites (12:00 - 13:00)

time	[id] title	presenter
12:00	[10] Update from the site-evaluation parameters group	HARMS, Jan
12:20	[9] Seismic characterization of Sos Enattos and other ET candidate sites	BULIK, Tomasz
12:40	[13] Underground site characterization for Einstein Telescope	Prof. PLASTINO, Wolfgango

### ET sites: ET sites (14:30 - 15:40)

time	[id] title	presenter
14:30	[24] Seismological characterisation of the ET candidate site in Italy: the Sos Enattos mine (Sardinia).	SACCOROTTI, Gilberto
14:50	[43] A feasibility study to design the underground facility hosting the Archimedes experiment: engineering challenges and key solutions	MARSELLA, Maria
15:10	[44] The geometric configuration of the ET Sardinia: understanding the surface site characteristics and investigating the underground settings	PAOLI, Andrea
15:30	[32] EUREGIO Meuse-Rhin site update	LINDE, Frank
