

## Szymon ZDZIEBLOWSKI

I am a science journalist based in Warsaw, Poland. I write for the Polish Press Agency (PAP) and Science in Poland website ([www.scienceinpoland.pap.pl](http://www.scienceinpoland.pap.pl)). I am interested in many different aspects of science: I cover innovation, AI, history, big science and even archaeology.

I have completed my master's degree in Mediterranean archaeology, worked some time as archaeologist in Egypt (Tell el-Farkha, Hierakonpolis, Alexandria). I wrote two travel books about Egypt (in Polish). After that I worked in Poznan Archaeological Museum (Poland) as PR officer. I edited and published first in Poland handbook on promoting archaeology (in Polish - "Cyfrowy archeolog"). Finally, I decided to work as full time science journalist. It enables me to deal with broad scientific themes and that I really like!
