

# Software Meeting Introduction

---

*Matteo Franchini*  
*Alessio Sarti*

# Intro

- \* We'll use `newgeom_v1.0` branch for data taking
- \* Currently works on MC
- \* Data chain:
  - BM and VTX @ good point
  - ST and TW @ finish implementation
- \* Data tacking MC ongoing
- \* Full Rec interface working now

Name	Last commit
■ G4Simulation	Update of the BM geometry + filling the output tree
■ Reconstruction	Fixed loading of IT and MSD
■ Simulation	merging

## Goal of today

Everyone status and discuss how to finalise the software for the end of the month.
