

2nd AMICI - INDUSTRY FORUM

The accelerators and SC magnets European Technology Infrastructure:
an Open Environment for Cooperation and Innovation with Industry

17 - 18

September 2019

NH Collection Grand Sablon

Brussels Belgium

GOALS

The goals of the workshop are three-fold: to present the outcome of the AMICI project, particularly regarding the access for industry to the European Technology Infrastructure as an open environment for cooperation and innovation, to review the landscape of future research facilities worldwide, with a particular emphasis on the industry markets and partnership in key technology areas, and to describe the plans developed in AMICI for consolidating the future European Accelerator and Magnet Technology Infrastructure beyond 2020.

TARGET

- Representatives of European SMEs
 - Universities
 - Research and Technology Infrastructures
- as well as of public stakeholders are invited to participate
