

Status of DArT vessel

Luciano Romero

CERN

30-April-2019

The vessel cap is being produced at Ciemat workshop.

Top

Bottom

- The copper tubes have to be welded to the flange.
- The inox pipes have to be welded to the copper tubes.
- Current copper tubes are standard, not OFC.
- OFC tubes are already ordered.
- A new flange with OFC tubes will be produced in the future.
