

20th AGATA Week and 4th Position Sensitive Germanium Detectors and Application Workshop

Tuesday, 17 September 2019

PSeGe Workshop 4: Demonstration of imaging applications and associated detector technologies (09:30 - 13:00)

time	[id] title	presenter
09:30	[8] Pulse-Shape Analysis and position resolution in highly segmented HPGe AGATA detectors	LEWANDOWSKI, L. REITER, Peter
10:00	[9] New encapsulation technique for MINIBALL	REITER, Peter
10:30	Coffee Break	
11:00	[10] Imaging with planar germanium detectors	CAFFREY, Adam
11:30	[11] Cryogenic detector system: recent work	BORRI, Marcello
12:00	[12] Versatile acquisition systems for segmented detectors: CAEN case history	GAROSI, PAOLA
12:30	[13] Discussion
