

Workshop on electromagnetic dipole moments of unstable particles

giovedì 3 ottobre 2019

Physics of bent crystals - Aula 113 (14:30 - 16:00)

-Coordinatori: Andrea Mazzolari

time	[id] title	presenter
14:30	[10] Channeling physics overview	TIKHOMIROV, Victor
14:55	[11] Overview of channeling in bent crystals,	GUIDI, Vincenzo
15:20	[12] Spin precession in bent crystals: MDM, EDM and T-odd effects	BARYSHEVSKY, Vladimir
15:45	[13] Round table discussion	

Physics of bent crystals: MDM/EMD proposals - Aula 113 (16:30 - 18:00)

-Coordinatori: Andrea Mazzolari

time	[id] title	presenter
16:30	[14] Charm baryon MDM proposal and preparation studies in UA9	NATOCHI, Andrii
16:50	[15] Experimental proposal for MDM/EDM of charm (beauty) baryons in LHCb	MERLI, Andrea
17:10	[16] Experimental proposal for MDM/EDM of strange baryons in LHCb	FU, Jinlin
17:30	[17] Round table discussion
