Session | **Location:** LNL, Sala Villi, Viale dell'Università 2, 35020, Legnaro (PD) | **Convener:** Silvia Leoni

2:30 - 2:50 PM **Status of the e676 experiment with AGATA+PARIS+VAMOS**

Speaker

Sara Ziliani

2:50 - 3:10 PM **Access PDR through beta decay in exotic nuclei**

Speaker

Iolanda MATEA

3:10 - 3:30 PM

PARIS + nuBall experiment: The GDR gamma-decay gated by states of different deformation

Speaker

Michal Ciemala

3:30 - 3:50 PM **Potential coupling of PARIS/nuball2**

Speaker

Jonathan Wilson

3:50 - 4:10 PM

Study of deformed and spherical $2+$ states via Coulomb excitation and first time measurement of PDR in ^{34}Si - PARIS@LISE at GANIL

Speaker

Mihai Stanoiu

4:10 - 4:30 PM **PARIS for study of fission at VAMOS**

Speaker

Marek Lewitowicz

4:30 PM
