

Nanoscience and Nanotechnology

Friday, 18 October 2019

Nanomaterial: Nanomaterial - Aula Thouschek (11:30 - 13:35)

time	[id] title	presenter
11:30	[58] Reinforcement of paper artworks with cellulose nanocrystals	Prof. MAZZUCA, Claudia
11:55	[20] Green bioactive nanomaterials for Cultural Heritage applications	Prof. PICCA, R.A.
12:20	[55] Formulation of nanocomposites of silver nanowires and graphene for the fabrication of SERS substrates for GMOs detection	Dr AMICUCCI, Chiara
12:45	[63] Effective reinforcement in Graphene Nanoplatelets high content biomimetic films	Prof. MARTONE, Alfonso
13:10	[51] Driving with temperature the synthesis of graphene on Ge(001) and Ge(110) substrates	SGARLATA, Anna
