

# Nanoscience and Nanotechnology

## Friday, 18 October 2019

### Special Nato project session - Salvini's room (11:30 - 13:35)

time	[id] title	presenter
11:30	[57] Resonance phenomena in the lattice and possible applications of such periodic structures	Prof. A BENDZIAK, V Fito
11:55	[56] Study of the influence of Pt nanoparticles on the bone marrow mesenchymal stem cells under adipogenic and chondrogenic differentiation	FESENKO, Olena
12:20	[46] Nanocomposite Sensor of Biological and Chemical Agents Based on Resonant Photonic Crystal Structure	Prof. SMIRNOVA, Tatiana
12:45	[59] Holographic organic-inorganic nanomaterials for functional diffraction gratings	Prof. SAKHNO, Oksana
