

# MUSE General Meeting

## Wednesday, 23 October 2019

### MUSE Plenary - Aula Seminari (14:20 - 18:00)

| time  | [id] title                    | presenter         |
|-------|-------------------------------|-------------------|
| 14:20 | [17] Welcome                  |                   |
| 14:30 | [1] Muon g-2 overview         | LANCASTER, Mark   |
| 15:00 | [2] Muon (g-2) laser overview | FIORETTI, Andrea  |
| 15:30 | [3] g-2 tracking systematics  | PRICE, Joe        |
| 16:00 | Coffee break                  |                   |
| 16:30 | [4] Gain corrections          | LUSIANI, Alberto  |
| 17:00 | [5] Europa $a_\mu$ analysis   | INCAGLI, Marco    |
| 17:30 | [6] g-2 EDM status and plans  | CHISLETT, Rebecca |

# Thursday, 24 October 2019

## MUSE Plenary - Aula Seminari (09:00 - 13:00)

| time  | [id] title                                                         | presenter                     |
|-------|--------------------------------------------------------------------|-------------------------------|
| 09:00 | [7] MUSE overview                                                  | GIOVANNELLA, Simona           |
| 09:30 | [8] Mu2e calorimeter overview                                      | MISCETTI, Stefano             |
| 10:00 | [9] The Mu2e calorimeter laser system                              | FERRARI, Carlo                |
| 10:30 | Coffee break                                                       |                               |
| 11:00 | [13] Mu2e calorimeter electronics: final design                    | SPINELLA, Franco              |
| 11:30 | [11] Mu2e Stopping Target Monitor                                  | PRICE, Joe<br>HARKNESS, Laura |
| 12:00 | [12] A different technique for Mu2e normalization                  | SARRA, Ivano                  |
| 12:30 | [10] Simulations of the MU2E beamline and other HZDR contributions | FERRARI, Anna                 |
