

LOFAR SKP meeting

Tuesday, 17 December 2019

Galaxy Clusters - ref. BRUG/BRUN - Aula Magna Rettorato (09:00 - 10:45)

time	[id] title	presenter
09:00	[44] LOFAR observations of a mass-selected sample of galaxy clusters	CUCITI
09:20	[45] Galaxy clusters with LOFAR: from selected targets to samples	BOTTEON
09:40	[46] Evidence for efficient magnetic field amplification in distant clusters	DI GENNARO
10:00	[47] Revived Fossil Plasma Sources in Galaxy Clusters	MANDAL
10:20	[48] The great Kite in the sky: LOFAR observation of the diffuse radio source in Abell 2626	IGNESTI
10:35	[49] Radio Feedback in Galaxy Groups	PASINI
