

16th Patras Workshop on Axions, WIMPs and WISPs

Friday, 18 June 2021

Session 17 (13:00 - 14:30)

-Conveners: Michael Tobar

time	[id] title	presenter
13:00	[57] (Halo) Scoping out the Parameter Space of Wave-Like Dark Matter	BARTRAM, Chelsea
13:25	[82] MADMAX - Towards a Dielectric Axion Haloscope	KRIEGER, Christoph
13:50	[160] SIS junction as single microwave photon detector for axion search	Dr PANKRATOV, Andrey
13:55	[161] Isotropic Cosmic Birefringence Signals from Axion-like Dark Matter	TRIVEDI, Pranjal
14:00	[162] Axion quality from gauge flavour symmetries	NARDI, Enrico
14:05	[163] Probing axion-like particle radiation from primordial black holes	SCHIAVONE, Francesco
14:10	[49] Quark nugget models of dark matter revisited	SAMSONOV, Igor
