

Second Gravi-Gamma Workshop

Friday, June 25, 2021

Multi-messenger science potential with future detectors and requirements for the future network for an optimal science exploitation: Multi-messenger science potential with future detectors and requirements for the future network for an optimal science exploitation (4:00 PM - 8:00 PM)

-Conveners: Giovanna Senatore

time	[id] title	presenter
4:00 PM	[6] Massive black hole binaries in the era of multimessenger astronomy	SESANA, Alberto
4:25 PM	[15] Very high energy GRB emission in the Multi-Messenger Era	PATRICELLI, Barbara
4:50 PM	[3] Future of multi-messenger science with the next-generation observatories	AMATI, Lorenzo
5:15 PM	[7] The Science Case for the Einstein Telescope	MAGGIORE, Michele
5:40 PM	[25] Multi Messenger data analysis challenges in the EOSC framework	Prof. CUOCO, Elena
6:05 PM	[12] The GuRu (GRAWITA using Rubin) project: hunting for gravitational wave events counterparts and transients in the Vera Rubin Observatory (LSST) era inside the GRAWITA collaboration.	PIRANOMONTE, Silvia
6:30 PM	Round table discussion
