

# 8th Low Emittance Rings Workshop (New Dates!)

## Monday, 26 October 2020

### Low Emittance Rings design & commissioning - via remote connection (16:00 - 18:30)

-Conveners: Richard Walker

time	[id] title	presenter
16:00	[60] HEPS progress	HE, Ping
16:30	[15] Effect of undulators on the lattice, emittance, and energy spread of NSLS-II	SMALUK, Victor
17:00	[18] Low emittance lattice design in synchrotron light sources by using complex bends	WANG, Guimei
17:30	[3] Challenges and Solutions for the APS-U Design	BORLAND, Michael
18:00	[5] Development of a DLSR commissioning simulation toolkit and its applications to the ALS-U Accumulator Ring and Storage Ring	HELLERT, Thorsten
