### Parallel 24: Chiral symmetry - Room6 (10:30 - 12:30)

time	[id] title	presenter
10:30	[181] Results for light pseudoscalar mesons	BERNARD, Claude
10:50	[159] Let's go dynamic -- a quick tour through 2+1 lattice simulations to understand chiral symmetry breaking	DESCOTES-GENON, Sebastien
11:10	[39] Analysis of the $N_f=2+1$ lattice QCD results on the lowest-lying baryon masses using covariant ChPT	MARTIN CAMALICH, Jorge
11:30	[23] Axial and Electromagnetic observables of hyperons in 2-flavor chiral perturbation theory	JIANG, Fu-Jiun
11:50	[142] Progress in Electromagnetic Corrections to Staggered Chiral Perturbation Theory	FREELAND, Elizabeth
12:10	[254] Topological charge in two flavors QCD with optimal domain-wall fermion	HSIEH, Tung-Han
