

Lattice2010

Thursday, 17 June 2010

Parallel 47: Theoretical developments - Room6 (14:30 - 16:10)

time	[id] title	presenter
14:30	[27] Species doublers as supermultiplet partners in lattice supersymmetry: ---General outlook---	KAWAMOTO, Noboru
14:50	[34] Species doublers as supermultiplet partners in lattice supersymmetry. The supersymmetric quantum mechanics case.	D'ADDA, Alessandro
15:10	[162] Supersymmetry non-renormalization theorem from a computer and the AdS/CFT correspondence	HONDA, Masazumi
15:30	[81] Witten index from lattice simulation	KANAMORI, Issaku
15:50	[262] A study of N=2 Landau-Ginzburg model by lattice simulation based on a Nicolai map	KAWAI, Hiroki
